

In order to ascertain the assessed average value of farming lands unaffected by railroads, mills and village valuation in the several towns in this county, and produce uniformity in the Assessment Rolls to be returned to the next Board of Supervisors, the assessors of the several towns are requested to observe the following directions:

All lots of ten acres and under, which you assess over \$50 per acre, are to be considered the same as village lots.

Place the valuation less \$50 per acre of all such lots in the column headed "village valuation," rejecting fractions of a dollar; and the whole valuation of said lots in the column headed "Real" the same as with lots of larger size.

Lots containing fractional parts of an acre, return in 1-2, 1-4, 1-8, 1-16, 1-32, and do not use the fractions 1-3, 1-6, 1-7 nor 1-12. Also give as near as may be, the number of acres occupied by railroads, in your town.

That these instructions may be better understood, the following examples are added: John Jones is assessed for 1.4 of an acre of land, valued at \$600, and \$500 personal property. Abram Pitcairn, 1-2 an acre, valued at \$5,000. Joseph Jacobs, 10 acres, valued at \$500, and \$400 personal. They would appear in the assessment roll as follows:
